

Response to Regional Experiences from Alliances on Carbon Markets

Moekti H. Soejachmoen (Kuki)

What is needed in Asian region? [should it be sub-region based?]

- Readiness to participate in the negotiation process
 - Technical issues
 - Political issues (interlinkages of different agenda in the negotiations)
- Readiness to participate in market-based mechanism (& climate finance?)
 - International? (Art.6 only or beyond?)
 - Domestic?
- MRV system
- Platform for sharing experiences and lessons learnt within the region and with other regions

Activities:

- Capacity buildings – both human resources as well as institutional capacities – including relevant courses for potential actors:
 - Accounting for market-based
 - DOEs
 - Other issues?
- Studies (national and regional)
- Collaborations & partnerships – on what level?
