

Article 6 Authorization in Practice

The (developing) process of authorization in Sweden

Ex-ante & Ex-post Authorization Processes under Article 6.2

Ex-ante vs Ex-post Authorization

EX ANTE

Pros

- Clear signal to projects and market based on A6 text
- Developing praxis?

Cons

- Future ITMO quality and transfer uncertain at authorization
- Requires "final approval" step before issuance/transfer

EX POST

Pros

- ITMO quality and transfer more certain at authorization

Cons

- Requires "pre-approval" step before projects can begin
- Less clear signal to projects and market

Thank you!
