

ETS Revision for Phase IV

The EU ETS under trilogues

(Public event)

Agenda

Date: October 25, 2022

Time: 16:00 – 17:30 p.m. (CEST)

Location : Online

The ETS has emerged as the backbone of the EU Climate Action and, especially in the last two years, as a crucial driver of decarbonisation. The Commission proposal to review the EU ETS Directive aims at aligning the emissions pathway of the ETS sectors with the new EU climate targets. Throughout the next decade, the ETS is required to both enable a deep decarbonisation of the power sector and to tackle industry's emissions, while avoiding carbon leakage.

The ENVI Committee adopted on 22 June their position on the file ahead of the beginning of the trilogues while the Council adopted it on 28 June. Interinstitutional negotiations began on 11 July.

Following the introduction of EU high level authorities, the roundtable will discuss key takeaways from the current EU ETS state of play under trilogues and will provide an opportunity to exchange views on the on-going negotiation process.

16:00

Welcome

- A. Marcu, Executive Director of the ERCST

16:05-16:45

View from Member States

- J. Tuma, Ministry of Environment of the Czech Republic

16:45-17:20

Roundtable

The event will feature officials to present their views of the on-going negotiations for the revision of the EU ETS under trilogues. The presentation of the main elements of the EU ETS State of Play will be followed by a 5-minute initial intervention per speaker, and by a discussion with relevant stakeholders that intends to encourage a debate on the following questions:

- What should be the role of compliant and non-compliant entities in the EU Carbon market?
- What is your opinion about using EU ETS revenues to finance RePower EU?
- How do you foresee the extension of carbon pricing to road transport and building?

- D. Vangenechten, E3G
- L. Rathe, Hydro
- M. Pahle, PIK Potsdam
- N. Vinck, Euroalliances
- W. Buk, PGE

17:20-17:30

Q&A
