

# 2024 State of the EU ETS Report Launch Event (Public Event)

## Agenda

**Date:** Tuesday 14 May 2024

**Time:** 15 :00 – 17 :00 CET

**Venue :** Hybrid

- Brussels based – in person - University Foundation, Rue d’Egmont 11, Brussels, Belgium.
- Outside Brussels – online.

This is the launch event of the 2024 State of the EU ETS Report<sup>1</sup>. During this event the report will be presented by the authors and discussed by commentators. This will be the ninth annual report on the State of the EU ETS and builds on the reports produced by this group of authors, and other partners, in the last years. The 2023 edition is available through this [link](#).

The European Commission is required to annually assess, according to the EU ETS Directive, the functioning of the EU ETS and report back to the EU Parliament and Council. While the European Commission has its role to play in providing an official report, it is also important that independent review and assessment of the functioning and delivery of the EU ETS takes place.

The annual “State of the EU ETS” Report aims to provide such an independent contribution to the policy debate, which is needed to ensure that the EU ETS is “fit for purpose”. The Report is intended as a “snapshot”, providing policymakers and stakeholders with an overview of how the EU ETS is doing by April of each year, based on previous year data.

This event will cover the 2024 Report. This year’s edition reflects the track record of the ETS last year, its recent developments, and the role the ETS is expected to play in the longer term.

---

<sup>1</sup> The 2024 State of the EU ETS Report is a joint effort between [ERCST](#), [BloombergNEF](#), [Compass Lexecon](#), and the [Wegener Centre for climate and global change at the University of Graz](#).
