

Preparing for the Review of the EU ETS Stakeholder's views on the Public Consultation

This meeting is under Chatham House Rules

Draft Agenda

Date: 28 January 2021

Time: 14:00 – 16:00

Location: Zoom Videoconference

As part of the policy updates foreseen under the European Green Deal, the European Commission will review all relevant EU policies against the increased targets, including the emissions trading system. Following the feedback period on the Inception Impact Assessment (IIA) for the Revision, which took place between October 29, 2020 and November 26, 2020 the Commission is now welcoming submissions to its public consultation.

This meeting is part of a series of webinars which are part of ERCST's work stream on the revision of the EU Emission Trading System as part of the European Green Deal. Our aim is to bring together a group of stakeholders on a regular basis to discuss the most important issues on the table for the EU ETS revision.

During this first stage of the revision process (leading up to the Commission's proposal expected in June), ERCST's approach to the EU ETS revision will involve a number of strands, including:

- *Accompanying the Commission's process by organising stakeholder meetings on the different feedback opportunities, of which the most recent was on the [Inception Impact Assessment](#).*
- *Organise activities on some of the core topics/issues that are important in light of the ETS revision – of which the most recent were on the topics of [supply-demand imbalance + MSR review](#).*

This webinar will focus on stakeholders' **initial reactions to the [European Commission's Public Consultation](#)**, which will be closed on February 5, 2021. It will start with a presentation from ERCST, outlining some of the key themes, followed by views from invited speakers and a discussion among participants.

- 14:00 **Opening Remarks**
- A. Marcu, Director, ERCST
- 14:05 **Public Consultation – key themes and rationale of ERCST**
- J-Y. Caneill, ERCST
 - D. Vangenechten, ERCST
- 14:20 **Stakeholder views on the ETS revision and public consultation**
- M. van Dessel, ExxonMobil
 - W. Acworth, ICAP
 - S. Defour & E. Valkenborgs, Transport & Environment
 - J. Olsen, BloombergNEF
- 15:15 **Moderated discussion with panelist and participants**
- 15:45 **Concluding remarks**
