This workshop is part of the project **EU – Turkey Climate Policy Dialogue**, financed by the European Union within the scope of the Civil Society Dialogue Programme between EU and Turkey which is coordinated by the Directorate for EU Affairs. The overall objective of the project is to establish a sustained dialogue between Turkish and EU CSOs, private actors and public institutions on the articulation of Climate Change policy between the EU and Turkey and climate policy development in general.

During this workshop the project team will give an overview of the project, as well as the objectives and activities that will be undertaken as part of the project. The project team will then present the first results of the research, highlighting the recent climate policy developments that have taken place in the EU.
