

ETS Review in the Fit for 55 Package

*** Agenda***

Date: 19 July 2021

Time: 10:00 – 12:00

Location: Zoom Webinar

The event will feature officials from the European Commission responsible for the EU carbon market and directly involved in the drafting of the proposal to review the ETS. The webinar will include a Commission's presentation of the main elements of the proposal followed by a discussion with relevant stakeholders.

The ETS has emerged as the backbone of the EU Climate Action and, especially in the last two years, as a crucial driver of decarbonization. The Commission proposal to review the EU ETS Directive aims at aligning the emissions pathway of the ETS sectors with the new EU climate targets. Throughout the next decade, the ETS is required to both enable a deep decarbonization of the power sector and to tackle industry's emissions, while avoiding carbon leakage.

The roundtable will discuss how the proposal will help the ETS to achieve the objectives of the EU Green Deal while also preserving the competitiveness of the EU economy.
