

# Article 6.8

## Non-Market Approaches

Views and information on the focus areas of the work programme activities and existing relevant non-market approaches to be facilitated under the framework

Jacqui Ruesga

# We have agreement

- **What NMAs aim to do:**

1. Assist in the implementation of NDCs and contribute to achieving the long-term temperature goal of the Paris Agreement.
2. Deliver higher mitigation and adaptation ambitions.

- **What NMAs are not/don't do:**

1. Are not reliant on market-based approaches.
2. Do not involve the transfer of any mitigation outcomes.

*Are conducted in a manner that respects human rights and the rights of Indigenous peoples*

# Focus areas

## Initial Focus areas

- (a) Adaptation, resilience and sustainability;
- (b) Mitigation measures to address climate change and contribute to sustainable development;
- (c) Development of clean energy sources

## *Things to consider*

- Enhance cooperation
- Avoid duplication
- Avoid burdens
- Do not delay work programme

# Identifying existing NMAs

- NMAs can include:
  - Regulations
  - Voluntary Agreements
  - Information, Education and Awareness Programmes
  - Research and Development
- Open call to Parties to submit examples of existing NMAs
  - COP26 alone concluded with approximately 36 Declarations/Initiatives, ranging in issue areas [COP26 Outcomes - UN Climate Change Conference \(COP26\) at the SEC – Glasgow 2021 \(ukcop26.org\)](#)

# Options for enhancement

- Identify linkages across NMAs
- Allow searchable and accessible on NMAs to be available to Parties, private sector, and civil society via the web-based platform
- Share information
- Participate in NMAs on voluntary basis
- GC-NMA to discuss activities, focus areas, and information sharing opportunities

# Schedule for implementing the work programme activities

## **Timeline:**

- Submissions (Feb 28)
- Synthesis report by Secretariat (June 2022)
- In-session workshop (June 2022)
- Report on that workshop (November 2022)
- Review the report and work programme, as appropriate
