

GLASGOW COMMITTEE ON NON- MARKET APPROACHES

(Art. 6.8 of the Paris Agreement)

April 2022

Identification of measures for enhancing existing links, creating synergies and facilitating the coordination and implementation of NMA

Scope of non-market approaches

- Financial and technical cooperation.
- Rules and regulations.
- Fiscal measures.
- Collective action.
- Monitoring and control.

Potential focus areas of non-market approaches under the framework:

- Adaptation, resilience and sustainability..
- Mitigation measures to address climate change and foster sustainable development.
- Joint mitigation and adaptation measures.
- Development of clean energy sources.

FINANCIAL AND TECHNICAL COOPERATION

encompasses all potential areas of the work programme and is directly linked to supporting countries compliance with NDCs (**conditional part**).

- Financial and technical/technological cooperation efforts make it possible to strengthen national and regional efforts in mitigation/ adaptation/ sustainable development/ poverty eradication.
- Cooperation allows the coordination of public, private and civil society actors.
- Cooperation will facilitate coordination between instruments and institutional arrangements (financing, technology, capacity development).
- Allows countries to be assisted in the implementation of NDCs in a holistic, integrated and balanced manner, through the provision of financial cooperation, technical assistance and technology transfer.
- Cooperation is oriented towards obligations and fulfillment of rights and is oriented towards specific results: environmental, economic and social impacts.

SCOPE OF WORK

First area: Within the NDC

It includes financial and technical cooperation efforts aimed at strengthening countries' compliance with the NDCs, within the framework of sustainable development and poverty eradication.

- Joint mitigation and adaptation for the integral and sustainable management of forests.
- Resilience of traditional agricultural sector and native agro-biodiversity.
- Management of water basins.
- Renewable energies and energy efficiency.

Second area: Outside the NDC

It includes financial and technical cooperation efforts in general, in different areas (social, economic, others) not linked to the NDCs of the countries within the framework of the Paris Agreement.

Measures for enhancing existing linkages, creating synergies and facilitating coordination and implementation of NMAs

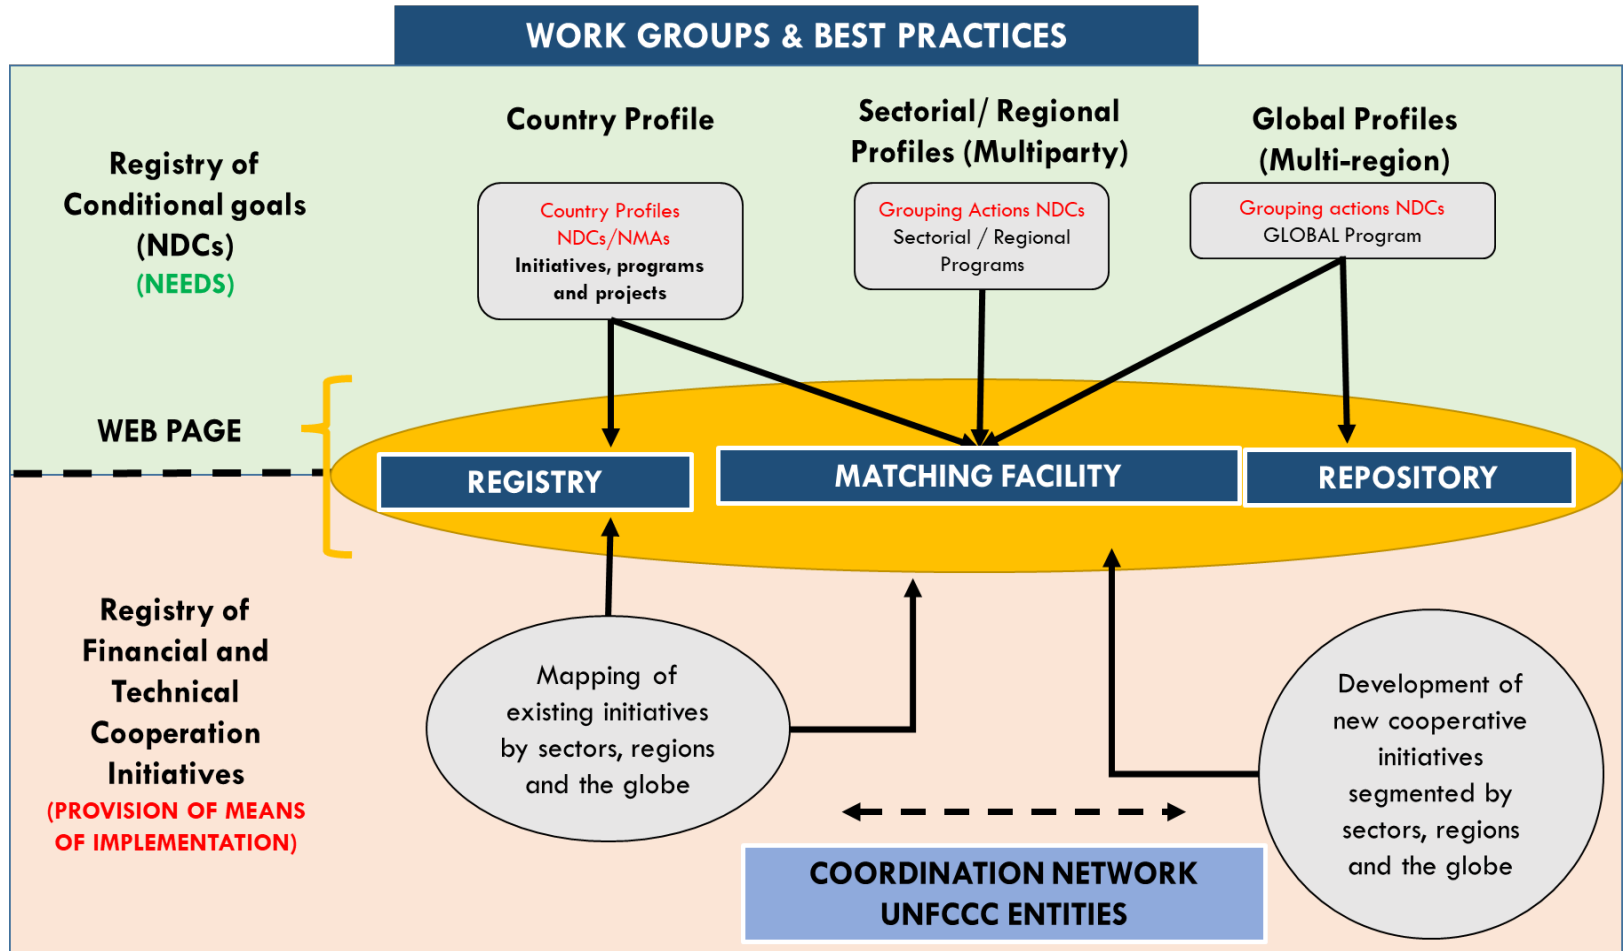

FINANCIAL AND TECHNICAL COOPERATION for NMA

(within the NDC) includes or may include:

- National or multi-party sectoral support.
- Bilateral/multilateral technical cooperation programs and projects.
- Regional and global programs.
- Jurisdictional-territorial approaches.
- Programmatic approaches.
- Specific projects between countries (bilateral or multilateral).

- **Registry of NDC actions based on NMA**
- **Scaling-up (grouping of national NDC actions)**
- **Mapping and registration of financial and technical cooperation (public and private)**
- **Matching the needs of the NDCs with the provision of means of implementation of existing cooperative sources (both public and private) and generate new programs.**
- **Regional and global agreements/alliances**
