

Future of the EU ETS: Agriculture ETS Launch Event (Public)

Agenda

Date: Tuesday, 14th October 2025

Time: 10:00 – 12:00 CET

Venue: Hybrid

- Brussels based – in person - **Conseil Central de l'Économie, Av. de la Joyeuse Entrée 17, 1040, Brussels, Belgium.**
- Outside Brussels – online.

This is the launch event of the *Agriculture ETS Report*, under the framework of the Future of the EU ETS project. The “Future of the EU ETS” is a process ERCST is putting in place to provide original analytical insights, pinpoint challenges, and propose solutions for the evolution of the EU ETS during the second Phase of phase IV (2025-2030) and post-Phase IV.

The project will investigate the system's impact on key sectors such as agriculture, power and industry and explore implications for governance relevant to EU policymakers. Within this process, a series of reports covering different aspects of the future of the EU ETS will be released throughout the year.

Agriculture was responsible for 10.8% of EU's ESR emissions in 2022, and whilst the sector's emission intensities have gone down, absolute emissions have not decreased since 2010. Following the example of the recent extension of carbon pricing to road transport and buildings, emission trading in agriculture could provide the right incentives to decarbonise this sector.

This event will cover the *Agriculture ETS Report*, this being the *fifth* report of the Future of the EU ETS project. During this event the report will be presented by the authors and discussed by commentators.

10:30 – 10:40	Welcome • Andrei Marcu, ERCST
10:40 - 11:00	Presentation by authors: <i>Agriculture ETS</i> Report • Nigel Caruana, ERCST
11:00 - 11:45	Initial reactions • Antoine Hoxha, Fertilizers Europe • Amanda Björksell, Copa-Cogeca • Małgosia Rybak, CEPI • Christian Holzleitner, DG CLIMA C3
11:45 - 12:30	Q&A
12:30	End of the event
